

October 2018 – Tony Tiyou joins greenCrowd as Associate

We are delighted to announce that Tony Tiyou has joined greenCrowd as Associate.

Tony established Renewables in Africa (RiA) in September 2016. RiA is a clean Energy Engineering Consultancy providing services in Renewable energy and Energy Management to project developers and investors. RiA is primarily focusing in projects in Africa but will also advise clients for projects in other emerging markets. The team provides technical assistance, markets insights and routes to markets to projects developers, investors and clean energy companies.

RiA has been involved in feasibility studies and technical advisory for solar and wind projects in Central Africa, East Africa, West Africa and Southern Africa. The team also successfully supported SMEs in seed fundraising and delivered key market reports for the Renewable Energy Industry in Africa.

Renewables in Africa is also a Media platform which vision is to transform Africa and African Lives by leveraging the Power of Renewable Energy. The ambition is to Raise the Technical Awareness about Renewable Energy and Energy Management in the African Continent and disseminate the information. As much as helping businesses primarily, it is also about getting the civil society understanding what they need, what they buy and to some extent as well, how to better use this energy.

Tony Tiyou commented: “We are strong advocates for more financial and technical support for small to mid-scale renewable energy projects. Joining greenCrowd is a fantastic opportunity to collaborate with other members of the platform and work towards this objective.”

Rick Gambetta, Founder and Partner commented: “Sustainable energy projects in frontier markets can be complex or innovative. If they are assessed and assembled by experienced professionals who collaborate, who understand the risks and how to mitigate them, they are more likely to be commercially viable and successful. With his in-depth knowledge and coverage of the market, we are delighted to welcome Tony into greenCrowd to help deliver small-to-medium scale sustainable energy projects happen across Africa.”
