

Press Release

FOR IMMEDIATE RELEASE

Renewables in Africa (RiA) announces a collaboration partnership with Beckaphyll

LONDON, UK – 21th January 2019

To go further, let's go together! To respond to the challenges posed by climate change and take on the task to fully electrify Africa, it is essential for all stakeholders to join forces. More specifically the Nigerian clean energy industry is in complete transformation and has demonstrated over the last couple of years that it has the potential to become one of the biggest if not the biggest in the continent.

For Renewables in Africa, we take it as a duty to walk alongside any country and organisation that is showing willingness to change the dynamic and seize the opportunities Clean Energy is bringing to better society and African people.

Renewables in Africa is delighted to officially announce our collaboration with Beckaphyll. RiA's Chief Executive Officer, Tony Tiyou has declared: *"We've have had the opportunity to collaborate on numerous occasions with Beckaphyll and we were really struck by the ethos excellence both our organisation share. Beckaphyll's growing experience in multiple markets including residential and C&I would allow us to solidify our footprint in the Nigerian and West Africa Market"*.

Beckaphyll is a budding innovation driven renewable energy company providing bespoke clean electricity solutions for business, commercial, industrial, and residential clients. Beckaphyll experience spans primarily in the Nigerian decentralized renewable energy market. The partnership with RiA will open-up the door for international expertise and funding in projects and provide avenues for expansion. Echoing this point, Chibuikem Agbaegbu, co-Founder of Beckaphyll has said: *"We are very proud of this partnership and excited about the opportunities this will create in advancing reliable electricity access in Nigeria and Africa. Though our first official partnership, Beckaphyll and RiA have established a great working relationship since 2016, driven by the mutual passion and vision we share for*

Africa's development. RiA's expertise and access to markets across Africa, and Beckaphyll's budding experience and focus on innovative clean electricity technologies for development is a great blend not just for Nigeria, but Africa as well."

Renewables in Africa and Beckaphyll are stepping up efforts to make Nigeria vision 30-30-30 a reality. Watch this space.

About Renewables in Africa (RiA)

Renewables in Africa is a clean Energy Engineering Consultancy providing services in Renewable energy and Energy Management to project developers and investors. RiA is primarily focusing in projects in Africa but will also advise clients for projects in other emerging markets. We provide technical assistance, markets insights and routes to markets to projects developers, investors and clean energy companies.

Renewables in Africa is also a Media platform which vision is to transform Africa and African Lives by leveraging the Power of Renewable Energy. The ambition is to Raise the Technical Awareness about Renewable Energy and Energy Management in the African Continent and disseminate the information. As much as helping businesses primarily, it is also about getting the civil society understanding what they need, what they buy and to some extent as well, how to better use this energy.
